Why choose Key Training Academy for Mandatory Training?

- Key Training Academy is owned and operated by a Registered Nurse (RGN/RNMH) and School Manager (CSBM, DSBM, ADSBM), which means both high quality clinical skills and educational experience is imparted throughout all our training
- Our Mandatory Training provides practical training in ALL the CSTF elements in **just one day** - there is no need to attend separate days for different elements
- All Key Training Academy trainers are not just 'trainers' - they have a genuine, operational knowledge and experience in a wide variety of healthcare settings, having previously worked as nurses or senior carers and in relevant training environments
- Key Training Academy are 'Dementia Friends', are members of the British Institute of Learning Disabilities, the National Back Exchange and are members of the Association of Healthcare Trainers. The good practice and national recommendations from these affiliations are included in all our training courses
- Key Training Academy are members of the CPD Certification Service, which means courses - including Mandatory - offer learners quality, certificated learning that can contribute to their CPD portfolios
